Muhammad Ismail Khan Effendi

Data Scientist

A graduate of BSc. Information Engineering and a Data Scientist with 1 years of professional experience having a strong background in Informatics, Mathematics, and Statistics, with experience using a variety of tools and technologies to extract insights and knowledge from data. Having extensive experience working with large and complex datasets and am skilled in programming languages such as Python. In my previous role, I designed and implemented data collection and analysis processes, developed and maintained predictive models, and communicated findings to stakeholders. I have a proven track record of using machine learning techniques to drive business value and am comfortable working with a variety of industries, including finance, healthcare, marketing, and technology. In addition to my technical skills, I am an effective communicator and thrive in collaborative environments. I am excited to bring my skills and experience to a new role as a Data Scientist or AI Engineer, where I can continue to grow and make a meaningful impact.
